

The greatest doodle pads ever

THE Procrastinator®

Business Card Specification

The Procrastinator Business Card has a common double sided doodling sheet glued into an outer cover. The outer cover can be printed in full colour with whatever business or promotional message you may want to include. The diagram above shows the area you have for graphics and text. It is a wraparound cover, therefore the right hand half becomes the front cover and the left hand half becomes the back cover.

Artwork requirements

Please supply artwork for your cover design as a hi-res jpeg or pdf to the above measurements and set up as CMYK at 300dpi. Send either on disk or by email. If you cannot provide finished artwork we can do this for you at extra cost. You will need to provide good quality logos and text. Use the diagram above to sketch out what you would like. A proof will be provided prior to production.

Design tips

The blue line on the diagram denotes the trimmed area of the cover. Keep any text or logos within the yellow line, this will ensure that your graphics do not get unnecessarily cropped. The red line indicates the 3mm bleed area which should be included on your artwork if colour or images bleed off the edge of the card.

Contact us direct if you need any advice or further information.

If you wish to order, please fill in this form and fax or post it back to us.
